FAIRCHILD PUBLICATIONS

www.fairchildpub.com

Fairchild Books (FB) has been the premier educational publisher of books in fashion since the 1940s, focusing on the categories of textiles; fashion design, including illustration, construction, patternmaking, draping, and grading; and fashion merchandising and marketing from producers and manufacturers to retailers. Titles in related fields cover costume history; social, psychological, cultural and aesthetic aspects of dress; color theory; and retailing, including promotion and visual merchandising. In the late 1990s, the list expanded with a line of interior design texts. CD-ROMs and other electronic resources are an important adjunct to print offerings. Publications provide educational resources for students preparing to assume leadership positions in fashion, interior design and related fields, and authoritative references for industry professionals.
