

Arizona FCCLA

Family, Career, and Community Leaders of America (FCCLA) is the career and technical organization for students in Family and Consumer Sciences Education programs. This organization, with over 200,000 students nationwide, encourages personal growth, stimulates career and leadership development and fosters family and community involvement. This is the only in-school student organization with the family as its central focus. The Arizona Department of Education recognizes the educational benefits of FCCLA and supports FCCLA as an integral part of a family and consumer sciences education program.

FCCLA helps to strengthen the Family and Consumer Sciences Education program by providing national programs, projects and activities that help enhance program competency attainment. The projects and activities offer students opportunities to develop and apply family and consumer sciences skills and offer a relevant means to assess student learning.

Students gain experience in leadership development and community service through working with other student leaders, local business and industry representatives and community leaders.
